EVERYONE LOVES A PARADE

Students ride a homemade contraption in the 2006 Ramblin’ Wreck Parade. Where do these contraptions go to die after they’ve had their moment of fame on Homecoming weekend? Check out the Wreck Graveyard on Page 3.

Campuswide Phishing Training Begins This Month

KRISTEN BAILEY
INSTITUTE COMMUNICATIONS

The Georgia Tech Cyber Security Team is going phishing.

Later this month, the group will conduct a campuswide phishing exercise to help educate students, faculty, and staff on cybersecurity risks and how to identify phishing threats in an email.

The exercise, which will take the form of a regular email, will contain a link to a non-Georgia Tech page that will ask you to enter your Georgia Tech login credentials. There will be apparent red flags in the email, though, that should raise suspicion and stop recipients from taking the proverbial bait. Anyone who enters a username and password on this fake page will be directed to an onscreen training page with tips on how to avoid a real threat.

“This is a non-punitive exercise, so information about individuals who provided their username and password will not be shared,” said Jason Belford, interim associate director for Georgia Tech Cyber Security. “We will review the results to help us refine our future training efforts. It is critical to conduct these continuous training exercises to help build and maintain awareness throughout the entire community.’

Georgia Tech Cyber Security has seen positive results when they have conducted similar exercises with individual departments and small groups of users on campus. In past exercises among those on campus who had not had phishing training, around 20 to 25 percent of people fell prey to the fake email. Following training, that percentage decreased to around 3 to 5.

This month’s exercise, supported by the Office of the President, is the first campuswide phishing exercise and will be repeated every semester.

How big of a problem is phishing on campus? Last year, hundreds of accounts were compromised — a significant increase from previous years that has grown even larger this year. Belford notes that all notable hacks in recent years, such as those involving Target and The Home Depot, began with a phishing message.

While preventing all forms of phishing is not possible, one safeguard users can employ is to always check where the URL link in an email is pointing — before clicking. This can be done by hovering over the link before clicking, or by touching and holding on the link to preview it if you use a smartphone. If the domain doesn’t match what you expect

The Launch of a New Research Institute

Students Campaign for Inclusivity

Hidden Georgia Tech: The Wreck Graveyard

Your Guide to 2016 Open Enrollment
Institute for Information Security and Privacy Launches This Month

The College of Computing and Georgia Tech Research Institute have many activities planned for October as part of the launch of a new interdisciplinary Research Institute and for National Cyber Security Awareness Month. The new Institute for Information Security and Privacy (ISP) will convene Tech faculty, researchers, and students working to improve information security. It will also develop new ways to train students and working professionals about cybersecurity. It officially launches on Oct. 28 at the 13th Annual Georgia Tech Cyber Security Summit. Learn more at www.isp.gatech.edu or at an upcoming event:

- **Oct. 16** — General Faculty Meeting. All faculty and researchers are invited to review and discuss collaborative research opportunities from 11 a.m. to noon in Room 1116, Klaus Advanced Computing Building. RSVP at www.c.gatech.edu/isp-facultymtg.

- **Oct. 27** — Capital One Distinguished Lecture Series Featuring Cryptographer and Massachusetts Institute of Technology Professor Ron Rivest. From 3:30 to 5:30 p.m. in LeCraw Auditorium, Scheller College of Business. Free and open to all. RSVP at www.c.gatech.edu/isp-lecture.

- **Oct. 28** — Georgia Tech Cyber Security Summit. A one-day symposium for academia, industry, and government to discuss the latest cybersecurity threats. From 8:30 a.m. to 4:30 p.m. at the Georgia Tech Research Institute Conference Center. Free and open to all. RSVP at www.gtcybersecuritysummit.com.

- **Oct. 28** — Fall Demo Day. Students will present developing cybersecurity research work and prepare to compete for cash awards before venture capitalists in spring 2016. More details at www.isp.gatech.edu/demo-day.

**ARTS & CULTURE**

**Oct. 21**
Sports on Film presents Pumpping Iron II. The women at 7 p.m. in the Student Center Theater.

**Through Nov. 13**
The College of Computing and Georgia Tech Libraries host retroTECH: A Hardware History of Computing, showcasing historical computing hardware and memorabilia that, together, tell a story about the history of computing and some early ties to Georgia Tech. The exhibit will be on display on the third floor of Clough Commons.

**HEALTH & WELLNESS**

**Oct. 18**
The Pi Kappa Alpha fraternity hosts Cycle for Life, a charity fundraiser event, from noon to 3 p.m. at the Campus Recreation Center. Participants will donate $10 and cycle for 30 minutes. Learn more at c.gatech.edu/cycleforlife.

**Oct. 20**
The Campus Recreation Center hosts Stop, Breathe, and Be: Mindfulness at Work, which focuses on ways to mindfully manage stress, Tuesdays from 12:15 to 1 p.m. Classes take place weekly through Dec. 8 and are $10. Sign up at mycrc.gatech.edu.

**Through Nov. 30**
The Campus Recreation Center hosts weekly group run/walks following the campus Pi Mile course. The group meets in the CRC lobby Monday at 7:45 a.m. and Wednesdays at 5:30 p.m. c.gatech.edu/grouprunwalk

**TRAINING**

**Oct. 15**
Julia Kubanek, John Leonard, and Aaron Levine discuss jobs in academia, including the job search, interviewing, and negotiating, from 5:30 to 7 p.m. in the Clay Theater, Student Success Center.

**Oct. 21**
The Center for the Enhancement of Teaching and Learning hosts a workshop on unintentional communication practices, from 11 a.m. to 1 p.m. in the Wilby Room, Library. RSVP to attend at c.gatech.edu/retreats

**COMMENCEMENT VOLUNTEERS WANTED**

As Georgia Tech prepares to celebrate its 250th Commencement with fall 2015 ceremonies, faculty and staff are invited to volunteer to be part of the weekend of events. To learn more about volunteer opportunities, visit www.commencement.gatech.edu/faculty-staff or contact events@comm.gatech.edu.

**TOWN HALLS**, from page 1

the Center for the Enhancement of Teaching and Learning, Professional Education, and the Office of Information Technology.

Forthcoming initiatives include opportunities to participate in a new Learning Management System pilot, a call for applications in response to the latest Massive Open Online Course Request for Proposals, the latest opportunities from the Georgia Tech Fund for Innovation in Research and Education (GT-FIRE), and next steps in the Learning Analytics initiative.

Included in the streamlining efforts is the reorganization of C21U, moving the unit from the College of Computing to the Office of the Provost. The Office of Educational Technology will also be moved under C21U. The move to the Office of the Provost will allow C21U to serve as an advisory unit, as well as provide flexibility and analysis unrelated to any particular student type or academic discipline.

On Thursday, Oct. 22, the Office of the Provost will host a town hall on the “Reimagination and Renovation of the Georgia Tech Library.” This event will take place at 11 a.m. in Room 152, Clough Commons, and will discuss the phased approach for the Price Gilbert and Crosland Tower renovations.

The guidance vision of the renovation is to reimagine the library of the 21st century. Once completed, the renovation will double current seating capacity, include virtual browsing and collaborations with Emory University, and will feature a host of new user-centric features for students and faculty including a library store, faculty reading room, teaching and innovation studios, project rooms, and collections showcases.

Use of the Georgia Tech Library and its collection has changed over time. Specifically, physical checkouts of print books have decreased dramatically. Now, a growing number of students use secure e-resources and full-text articles. Notably, visits to the library and usage of electronic resources are at an all-time high. Read more about the project at www.renewal.library.gatech.edu.

Questions for either town hall may be submitted in advance at provostofficeemail.gatech.edu. There will also be an opportunity to ask questions during the events.

**PHISHING**, from page 1

it to, that should be a giveaway. For more information, visit www.security.gatech.edu/phishing.

Those on campus who think they have received a phishing message should forward it to phishing@gatech.edu, or just delete it. Forwarding such messages to Cyber Security helps the team use them to increase operational effectiveness as well as better understand current phishing trends.

The phishing exercise will hit inboxes throughout the year. From 3:30 to 5:30 p.m. in Clough Commons. Learn more at www.c.gatech.edu/phishing.

Students Invite Faculty, Staff to Sign Inclusivity Pledge

**INSTITUTE DIVERSITY**

Last month, the Student Government Association (SGA)’s Cultural and Diversity Affairs Committee began seeking signees for its Campus Inclusivity Pledge, asking all students, staff, and faculty to underscore their commitment to a positive campus culture.

The pledge essentially asks signees to make a personal commitment to create a welcoming, diverse, and inclusive culture throughout the Georgia Tech community. Students from the SGA committee will also be tabling on Tech Walk as part of their efforts.

To sign the pledge visit www.c.gatech.edu/pledge. Those who want to continue related conversations on social media are invited to use the hashtag #techtogether.

Albert Einstein will soon make himself at home on the northwest corner of Tech Green. The monument is currently being installed and will be dedicated on Friday, Oct. 23, at 3:30 p.m. A panel discussion on the scientist will follow at 4:30 p.m. in Clough Commons. Learn more at www.c.gatech.edu/einstein.

The Ramblin’ Wreck Parade, a display of classic cars and feats of student engineering, is held before every Homecoming football game. After the parade, the classic cars go home with their owners, but the contraptions go to the Wreck Graveyard, located at the corner of Sixth Street and Techwood Drive, near the O’Keefe Gym. There they sit, providing a trellis for weeds and a home for stray cats, until the next Homecoming when Tech students scour the Graveyard for parts. Here’s a graveyard glimpse.

### ABOUT THE RAMBLIN’ WRECK PARADE

It dates back to 1929 when The Technique began an “Old Ford Race” to Athens. In 1930, the race was deemed unsafe by the administration, so a parade of contraptions was created in 1932 to subdue student protests. The parade has run every year since then except for 1942 and 1943, when World War II led to an American fuel shortage. In 1944, the parade was resurrected — but the contraptions had to be human-powered. The use of gasoline power was allowed again in 1946. Learn about this year’s Homecoming activities at www.homecoming.gatech.edu and www.gtalumni.org/homecoming.

Hidden Georgia Tech is a photo essay series highlighting places on campus that may largely go unnoticed but are sometimes hidden in plain sight. If you know of a place worth exploring, email editor@comm.gatech.edu.

### HIDDEN GEORGIA TECH | THE WRECK GRAVEYARD

### EVENTS

#### SEMINARS & LECTURES

**Oct. 19**
David Hu, associate professor and recent winner of the Ig Nobel Prize, gives an Inquiring Minds @ Tech Public Lecture about his “wacky” animal-related research in Room 144, Clough Commons. [c.gatech.edu/wackyscience](http://c.gatech.edu/wackyscience)

**Oct. 22**
Featuring distinguished women in technology, Women’s Leadership in the Cyber World focuses on challenges and issues related to cyber threats and on innovative solutions to address them, from 5 to 8 p.m. at The Biltmore. [c.gatech.edu/cyberwomen](http://c.gatech.edu/cyberwomen)

#### MISCELLANEOUS

**Oct. 13**
The Georgia Institute of Technology celebrates 130 years since its founding on Oct. 13, 1885.

**Oct. 15**
The IMPACT Speaker Series hosts Bill George, Tech alumnus and professor of management practice at Harvard Business School, from 4:30 to 6 p.m. in LeCraw Auditorium, Scheller College of Business. [www.scheller.gatech.edu/impact](http://www.scheller.gatech.edu/impact)

**Oct. 15**
Postdocs@Tech hosts the 2nd Annual Postdoctoral Research Symposium from 12:30 to 6:30 p.m. at the Petit Institute. [c.gatech.edu/postdoc-symp](http://c.gatech.edu/postdoc-symp)

**Oct. 17**
Georgia Tech Football hosts the University of Pittsburgh at 12:30 p.m. at Bobby Dodd Stadium. Faculty/staff tickets are available for $15. [www.buzz.gt/f15facstaff](http://www.buzz.gt/f15facstaff)

**Oct. 18**
Faculty and staff are invited to participate in TEAM Buzz, a day of service in Atlanta, from around 7:30 a.m. to 1:30 p.m. Child care is provided. Sign up at [teambuzz.org](http://teambuzz.org)

**Oct. 24**
The Alumni Association hosts the Ramblin’ Wreck Rally Tailgate as part of Homecoming weekend. The tailgate begins 2.5 hours prior to kickoff. Tailgate is free, and barbecue plates are $15. Details and registration at [c.gatech.edu/HCtailgate](http://c.gatech.edu/HCtailgate)

For a more comprehensive listing of events, or to add your own, visit [calendar.gatech.edu](http://calendar.gatech.edu).
A guide to all benefits offered through Georgia Tech and the University System of Georgia (USG) will be mailed to every employee’s home the week of Oct. 19. If you don’t enroll for 2016 benefits, your 2015 coverage will continue at 2016 rates. While it is not mandatory to re-enroll in benefits plans to maintain coverage, it’s important to review current selections to ensure they are still the best choices for the coming year. You must re-enroll if you want an FSA in 2016.

Read on for more information about this Open Enrollment season.

**ANNUAL OFFERINGS**

**Medical, Dental, and Vision Plans**

The same medical plans are being offered as in 2015; however, premiums have increased because of the USG’s moves toward contributing to all plans equally in 2017. Premiums for Delta Dental Base and Delta Dental High will increase. The premiums for DeltaCare HMO will remain the same. EyeMed will continue to provide vision coverage, and rates will remain the same.

**Tobacco Surcharge**

If you are enrolled in a medical plan, you must certify if you are a tobacco user. If you do not make a change, your tobacco use status will remain the same as last year. Tobacco users will have a $75 per month non-refundable surcharge added to health care premiums.

For those interested, Stamps Health Services offers cessation counseling. Call 404-326-9707 for more information.

**Pharmacy Provider**

CVS/caremark will continue to be the USG’s pharmacy benefit manager for employees enrolled in Blue Cross Blue Shield (BCBS) health care plans. Your BCBS ID card also includes your CVS/caremark information. There are annual formulary prescription drug coverage and tier changes.

Nov. 13
Open Enrollment Ends

**NEW FOR 2016**

**HSA Contribution Limits Increase**

To comply with the Affordable Care Act, the HSA contribution limit for family coverage will increase to $6,750, and the Consumer Choice HSA medical plan out-of-pocket maximum for in-network coverage will decrease to $6,850.

**Pay Less for Care at CVS MinuteClinic®**

BCBS members will pay less to visit a CVS MinuteClinic in 2016. MinuteClinic walk-in medical clinics are staffed by nurse practitioners who specialize in family health care. Visit www.minuteclinic.com for a complete list of services and locations.

**See a Doctor 24/7 with LiveHealth Online**

In 2016, BCBS Comprehensive Care, BlueChoice HMO, and Consumer Choice HSA members can talk face-to-face with a board-certified doctor through a mobile device or computer with a webcam at www.livehealthonline.com for a lower cost than a visit to the doctor’s office. LiveHealth Online doctors provide medical advice for common concerns like the flu, colds, allergies, and more. They can also send a prescription directly to a pharmacy. It’s faster, easier, and more convenient than a visit to an urgent care center or retail health clinic.
